AMD RADEON™ RE1600

Entertainment Series

DESCRIPTION

AMD Radeon™ RE1600 is optimized for the latest generation AMD and Intel processors. The Entertainment Series is built using high-quality memory chips designed for low power consumption. The low profile heat spreader provides additional protection with the added assurance of high compatibility testing, backed by a lifetime warranty. Running frequencies up to 1600MHz and programmed with JDEC timings, AMD Radeon™ Memory Entertainment Series is the best value for a great home theater PC or everyday applications where reliability, compatibility and performance are paramount.

KEY BENEFITS

- Enjoy plug and play system memory that gets your systems up and running fast.
- Upgrade your parts and experience performance consistency with every batch.
- Experience the benefits of memory designed for low power consumption.

TECHNOLOGIES

Designed to take advantage of your system memory to create a virtual drive enabling additional performance enhancements to your PC.

Manufactured by Dataram Corporation

Product Information

Product Family	Entertainment Series
Product Name	AMD Radeon™ RE1600
Spec	DDR3 PC3-12800 1600MHz
Certification	RoHS
Warranty	Lifetime
DIMM Dimensions	5.250" x 1.181" x .155"
Packaging Type	Blister Pack

Part Number	Shielded	Capacity	Kit Capacity	MHz	Timings
AE32G1609U1	Yes	2GB	1 x 2GB	1600	9-9-9-28
AE34G1609U2	Yes	4GB	1 x 4GB	1600	9-9-9-28
AE38G1601U2	Yes	8GB	1 x 8GB	1600	11-11-11-28
AE34G1609U1K	Yes	4GB	2 x 2GB	1600	9-9-9-28
AE38G1609U2K	Yes	8GB	2 x 4GB	1600	9-9-9-28
AE316G1601U2K	Yes	16GB	2 x 8GB	1600	11-11-11-28
AE34G1609U1	Yes	4GB	1 x 4GB	1600	9-9-9-28
AE38G1609U1K	Yes	8GB	2 x 4GB	1600	9-9-9-28

Features

PC3-10600 (1333MHz)

Voltage 1.5

Equipped with an extruded aluminum shield to provide improved protection with thermal conductivity up to 165W

Low Profile

100% Tested and Verified

Unlock up to 6GB of AMD Radeon™ RAMDisk

Compatible with AMD and Intel Platforms

Unshielded available
